## KELINGTON SECURES RM64.0 MILLION WORTH OF NEW UHP CONTRACTS

*Boosting new orders secured in FY2020 to RM105.0 million*

---

**Kuala Lumpur, 12 February 2020** – Integrated engineering solutions provider, Kelington Group Berhad (“Kelington” or “Group”) has clinched several new contracts worth RM64.0 million in China under the Ultra High Purity (“UHP”) segment.

The projects were awarded by the largest semiconductor foundry company in China for specialized engineering works for a few of their wafer fabrication plants in China such as Beijing, Tianjin, etc. The projects will be completed in two years and are expected to contribute positively to the Group’s earnings for the financial years ending 31 December 2020 and 31 December 2021.

**Ir. Raymond Gan, Chief Executive Officer of Kelington Group Berhad** said, “We are encouraged by the contracts win as it further strengthens our market position in China, despite the challenging operating landscape today. The projects were awarded to us by a repeat customer whom we have a long-standing relationship with. We remained confident on growing our presence in China as we believe the opportunities in the semiconductor sector there remains attractive.”

“Outlook for the Group remains promising as we got off to a good start in FY2020 with approximately RM105.0 million worth of total new orders secured in the first two months of the year, about one third of RM386.0 million total new orders secured in FY2019. Moving forward, we will continue to work on sustaining the growth momentum through our expansion in the Industrial Gas sector while actively bidding for more projects across the UHP, Project Engineering and General Contracting segments.”

## **ABOUT KELINGTON GROUP BERHAD (“Kelington” or the “Group”)**

Kelington is an integrated engineering solutions provider specializing in ultra-high purity (UHP) gas and chemical delivery systems, mechanical process engineering, mechanical systems and electrical systems. The Group provides end-to-end engineering solutions ranging from system design to fabrication and installation of equipment to testing and maintenance.

Established since 2000, the Group serves customers in the high technology industry across different sectors such as Industrial Gases, Wafer Fabrication, Solar Energy, TFT-LCT, Bioscience and Light Emitting Diode (LED). In line with its expansion plans, Kelington has also expanded its industry focus to include the pharmaceutical, healthcare and oil and gas sectors.
