Press Release

KELINGTON SECURES TWO NEW CONTRACTS WORTH RM19.3 MILLION IN CHINA, BENEFITS FROM “MADE IN CHINA 2025” INITIATIVE

- This brings total new orders secured in 1Q2017 to RM76.05 million, outstanding orderbook at RM239.3 million

Kuala Lumpur, 3 April 2017 – Integrated engineering solutions provider, Kelington Group Berhad’s (“Kelington” or “Group”) wholly-owned subsidiary, Kelington Engineering (Shanghai) Co. Ltd. has secured two new contracts from China amounting to RM19.3 million for the installation of ultra high purity gas delivery systems.

The two contracts awarded by global MNC semiconductor manufacturers will commence immediately and are expected to be completed by December 2017.

Together with these two contracts, the Group has secured a total of RM76.05 million worth of new orders in the first quarter of 2017. Kelington’s current outstanding orderbook now stands at RM239.3 million.

Kelington has an established track record in providing specialized engineering services for ultra high purity (UHP) gas solutions which is primarily used by the semiconductor and other high technology manufacturers.

Ir. Raymond Gan, Chief Executive Officer of Kelington Group Berhad said, “The contracts are awarded by repeat customers of the Group, demonstrating our capabilities in meeting the stringent requirement of global MNCs. We are very encouraged by the support of our customers, and are well positioned for growth in 2017.”

“Under the *Made in China 2025* initiative, China aims to become a superpower in the manufacturing of high technology industries by 2025. The China government is undergoing a significant capacity expansion growth and is expected to invest heavily to increase its production of memory chips and semiconductors.”

“According to industry reports, China aims to produce 70% of its total consumption of integrated circuits, from approximately 10% now. This augurs well for players like us as we aim to gain a share of the capex expansion activities of these technology players,” he added further.

The Group is optimistic that it will be positively impacted by the expected capacity expansion growth in the China electronics market.

ABOUT KELINGTON GROUP BERHAD (“Kelington” or the “Group”)

Kelington is an integrated engineering solutions provider specializing in ultra-high purity (UHP) gas and chemical delivery systems, mechanical process engineering, mechanical systems and electrical systems. The Group provides end-to-end engineering solutions ranging from system design to fabrication and installation of equipment to testing and maintenance.

Established since 2000, the Group serves customers in the high technology industry across different sectors such as Industrial Gases, Wafer Fabrication, Solar Energy, TFT-LCT, Bioscience and Light Emitting Diode (LED). In line with its expansion plans, Kelington has also expanded its industry focus to include the pharmaceutical, healthcare and oil and gas sectors.
