Kelington transfers to Main Market tomorrow

PETALING JAYA (Jan 26, 2012): ACE Market-listed Kelington Group Bhd, a provider of ultra high purity (UHP) gas and chemical delivery systems, will transfer its listing status to the Main Market of Bursa Malaysia tomorrow.

Kelington chairman and CEO Raymond Gan said the transfer befits the group's growth prospects, as it targets to expand its clientele into other industries by enlarging the group's range of services from delivering UHP gas and chemical systems to include other utilities such as ultra-pure water, process exhaust and vacuum systems.

"Kelington operates in the high-growth niche within the semiconductor industry, serving the wafer fabrication, flat panel display, and solar cell sectors, which are still experiencing strong demand globally.

"Our transfer to the Main Market reflects the group's positive outlook in the future. We are optimistic that with the enhanced profile, coupled with our track record, we will be able to capture even more clients in the region," said Gan in a statement today.

The World Semiconductor Trade Statistics (WSTS) has forecast that the world semiconductor market will grow 2.6% this year and 5.8% to US\$328 billion in 2013.

Apart from Malaysia, Kelington has established its footprint in Taiwan, China and Singapore.

For the nine months ended Sept 30 2011, the group posted a revenue of RM94.3 million, up 75.4% from RM53.8 million in the year-ago period.
