Kelington Bags RM108 Million Contract For Packaging Facility In Singapore

By **Editor** September 22, 2025

Kelington Group Berhad (KGB) has announced that its wholly owned subsidiary, Kelington Engineering (S) Pte Ltd (KESG), has secured a contract valued at approximately RM108 million (SGD33 million) for works related to an advanced packaging facility project in Singapore.

The contract was awarded by a turnkey engineering specialist engaged in the project for a leading global memory chip manufacturer. Under the scope, KESG will undertake the bulk gas distribution piping system for the facility.

December 2026, upon issuance of the Final Completion Certificate by the project owner.

KGB said the contract is expected to contribute positively to the group's earnings and net assets for the financial years ending 31 December 2025 and 31 December 2026.

The company also noted that none of its directors, major shareholders, or connected parties have any direct or indirect interest in the contract. Apart from normal operational risks, no exceptional risks are anticipated.

This latest award strengthens KGB's presence in Singapore's high-tech engineering sector and highlights its role in supporting the semiconductor supply chain.
