

## Press Release

FOR IMMEDIATE RELEASE

### **KELINGTON SECURES RM172 MILLION CONTRACT FOR ADVANCED DATA STORAGE MANUFACTURING FACILITY IN SARAWAK**

Kuala Lumpur, 29 September 2026 – Integrated engineering solutions provider, Kelington Group Berhad (“**Kelington**” or the “**Group**”) (stock code:0151) through its wholly-owned subsidiary Kelington Technologies Sdn. Bhd. (“**KTSB**”) has secured a contract worth approximately RM172 million from a manufacturing company at Sama Jaya Free Industrial Zone in Kuching, Sarawak (“**Customer**”), for the provision of engineering and early-stage infrastructure development for an advanced data storage manufacturing facility in Kuching, Sarawak (“**Contract**”).

The Contract encompasses engineering and early-stage infrastructure development works, including site development, foundation systems and critical high-voltage power infrastructure. These works form part of the Customer’s expansion project in Sarawak, which involves the design and construction of an advanced data storage manufacturing facility in Kuching, Sarawak (“**Project**”). The works are expected to commence immediately and are scheduled for completion by August 2027.

**Mr. Lim Seng Chuan (林成全), Chief Executive Officer of Kelington Group Berhad** said, “We are pleased to secure this latest contract, which further expands our involvement in the Project. It demonstrates our ability to take on a broader role in the development of advanced data storage manufacturing facilities and further strengthens our track record in supporting large scale projects in Malaysia.”

In addition to the RM172 million Contract, KTSB has also secured a previous contract and various purchase orders from the same Customer, principally relating to the design and build of advanced data storage manufacturing and associated infrastructure facilities for the same Project, with an aggregate value of approximately RM111 million.

Together, these awards bring the aggregate value of contracts and purchase orders secured for the Project to approximately RM283 million.

Mr. Lim added, “The growing scope of our involvement reflects the confidence placed in our engineering and execution capabilities. We expect to secure more contracts from the Customer covering various scopes of work in the coming weeks in relation to the Project in Kuching, Sarawak. Any material development arising therefrom, including the cumulative contract value, will be announced by the Company, as and when required.”

“Malaysia continues to attract investment in advanced semiconductor manufacturing, creating opportunities for Kelington to build on our capabilities and track record in the sector. These contract wins will also contribute positively to the Group’s earnings and support earnings visibility through the completion of the works.”

For the six months ended 30 June 2026, the Group secured RM1.23 billion in new contracts. Including subsequent contract wins of RM2.37 billion and the RM172 million Contract, total year-to-date wins stood at RM3.77 billion. With this, the Group maintains robust earnings visibility in the coming years.
