

KELINGTON'S KUCHING CONTRACTS HIT RM416MIL

KUALA LUMPUR (October 5, 2026): Kelington Group Bhd's unit Kelington Technologies Sdn Bhd (KTSB) has secured a further RM133 million contract from a manufacturing company at the Sama Jaya Free Industrial Zone in Kuching, Sarawak.

In a Bursa Malaysia filing today, Kelington said the latest award, secured on Oct 2, covers major structural steelworks for an advanced data storage manufacturing facility. The latest contract follows an RM172 million award secured by KTSB from the same customer on Sept 29 for engineering and early-stage infrastructure development for the facility.

Kelington said the latest award brings the aggregate value of contracts and purchase orders secured by KTSB from the customer for the project to RM416 million.

"As announced on Sept 29, the aggregate value of contracts and purchase orders secured by KTSB from the customer for the project stood at about RM283 million. With the new award of about RM133 million, the aggregate value of awards secured by KTSB from the customer for the project now stands at RM416 million," Kelington said. The latest contract is expected to commence immediately and be completed by April 2028.

The company said the new award is expected to contribute positively to its earnings and net assets for the financial years ending Dec 31, 2026, and thereafter until the completion of the new award.

"KTSB expects to continue securing further contracts from the customer covering various scopes of work in relation to the project in Kuching. Any material development arising therefrom will be announced by the Company, as and when required," Kelington said.
